Pattern notes

- Ch1 in the beginning of a row does not count as stitch
- Ch2 in the beginning of every row does always count as stitch (first tr). I am well aware that it is more common with a ch3 as the first tr in a row. But I think a ch2 gives the scarf a neater look. If it doesn't work for you just make a ch3 instead.
- The tr4tog is "splitted". First and second tr of the first tr4tog are crocheted in first ch2sp, fourth and third tr of the first tr4tog are crocheted in second ch2sp.
- All other tr4tog are crocheted like this: first and second tr of the tr4tog are crocheted in same ch2space as third and fourth tr of the last tr4tog. Third and fourth tr of the tr4tog are crocheted in the next ch2sp.
