## Special Abbreviations

**aptr:** apache treble. treble in front loop only in two rows below: yarn over two times, insert hook in front loop only in stitch two rows below, yarn over, pull through (4 loops on hook), yarn over, pull through two loops (3 loops on hook), yarn over, pull through 2 loops (2 loops on hook), yarn over, pull through last two loops.

**FPtr in aptr 2 rows below:** in rows where the direction of diagonal treble rows changes. Yarn over two times, hook from front to back to front around the treble in 2 rows below, yarn over, pull through (4 loops on hook) yarn over, pull through two loops (3 loops on hook), yarn over, pull through two loops (2 loops on hook), yarn over, pull through last two loops.

**Join new yarn:** make a slipknot, insert hook in first stitch, place yarn on hook, pull through, yarn over, pull through.

**Fasten off:** leave a long thread, cut yarn, draw the cut end through the last remaining loop on the hook, pull on the tail of yarn to snug up the end.

## Pattern notes

- The pattern is worked from bottom to top.
- The pattern is based on the apache tear pattern.
- The pattern is worked on right side only.
- The joining chain is never counted as a stitch.
- The end chain is never counted as a stitch.
- First two scs are always crocheted in the first stitch (same stitch as yarn is joined).
- Last two scs are always crocheted in the last stitch.
- The pattern increases with 2 stitches in every row.
- The stitch behind the treble in front loop only or front post is not crocheted.
- Start every row with a long thread and leave a long thread of yarn (approximately 15 cm) when fastening off.
- The pattern is repeating itself from row 48 to row 60 but as the pattern is growing in stitch amount you have to add 1 to the repeating stitch part. (\* to \*). You find the exact amount of repeats in the written pattern.

- Row 23, 36, 49, 62.... and every thirteenth row are direction changing rows. They are crocheted in yarn n or yarn b. The FPtr are crocheted around the apache trebles two rows below, which means that they are the same colour.

- A sc in the back loop of the apr in row below is crocheted when written in the pattern. As you see in the picture in row 10. "...1aptr, 1sc in blo (*this is crocheted in the blo of the apr in row below*), 1 apr..." The apr always counts as a normal stitch as usual when the apache tears technique is used.

- A border is optional. I just cut off the threads at the same length. ( ca.12cm)
